At

**88 Lincoln St. Framingham**

Karen Snyder was appointed by the courts to oversee the progress and implementation of services associated with the Children's Behavioral Health Initiative, (CBHI) due to the Rosie D lawsuit back in 2001.

If you have been involved in the following services: Intensive Care Coordinators (ICC), Family Partners (FP), Mobile Crisis Intervention (MCI), In-Home Behavioral (IHB), Therapeutic Mentoring (TM), and In-Home Therapy (IHT)

**This is the time that we as parents, get to voice our opinions.**

**Your input is so valuable.**

**Here are a few questions that we can all think about and give feedback on:**

Do you have a "voice" in the services?

Are the services helping your child and family?

Are the services meeting the needs of your family?

Are the services being coordinated?

Please **RSVP** and if you need child care, please tell us the number of children and their ages.
